

# SC-19

ORDERCODE D1519

**SHOWELECTRONICS FOR PROFESSIONALS**

## SC-19 Speaker Checker

The SC-19 is designed to check your speakers. The unit has one Speakon output and one XLR output. Turn the Stagecube on by pressing the ON/OFF button **(1)**. You can choose which output you want to check: Speakon or XLR by pressing the button **(2)**.

Once you have chosen your output, you can control the output volume **(3)**. By turning the Frequency control **(4)**, you can vary from 20Hz - 20 KHz.

Output Impedance: 4Ω
